8a Bottom border + multiline - verifying border stays at row bottom

ID	Description	Remark
001	This description is intentionally long enough to wrap across multiple lines in order to demonstrate that the bottom border always appears at the very bottom of the tallest cell.	Short remark
002	Medium length text that wraps once or twice.	Line one Line two Line three Line four
003	Single-line	Single-line

8b All-borders + multiline - no border overlap between rows

Ref	Content	Note
A	Row with all borders and a long text that wraps to check there is no double-border artifact between rows.	Check top and bottom borders on this row carefully
B	Second multi-line row. The top border of this row should not overlap the bottom border of the previous one.	Note line 1 Note line 2
C	Third row - single line.	End

8c BL borders + multiline + alternating backgrounds

#	Text	Tag
1	A short text.	quick
2	This text is quite a bit longer and will wrap to a second line at minimum width.	wrapped
3	Even longer text to create a three-line cell for proper visual verification of the bottom border alignment across all cells in the row.	long
4	Back to a short text.	end
